Ultimate Small Shop

The complete guide contains loads of advice for readers to benefit from the author's 25 years of experience in the business.

Chicago, IL: Woodworking is one of the most rewarding and relaxing hobbies anyone can engage. However, most hobbyists are afraid to set up a shop due to a lack of funds or space.

Ultimate Small Shop announces the launch of the book "The Ultimate \$1,000 Small Shop". The book is a complete guide on how woodworking hobbyists can set up a small shop with a total budget of under \$1,000. It contains in-depth information on the most critical issues like tool selection, space selection, shop layout, lighting and sound, heating and ventilation, and of course, safety. Readers will get exact links to buy tools at the lowest price.

"I've been a woodworker for more than 25 years. I must tell you, I've been through a lot and my experience has improved over the years. For most of you out there who want to build a woodwork shop but confused on how to start, this is all you need. I've poured out all of my two decades of experience working with tools and other things so that you can learn from me. You can save yourself a headache and money by learning from my mistakes and taking the right steps," said Ralph Chapman, author of the book.

Ultimate Small Shop

The Ultimate \$1,000 Small Shop is all a woodworker needs to create their perfect shop under budget. The book has six modules, each of which elaborates quality information that can help the woodworker make the right decisions. The modules deal with topics like;

- Tool Selection, Shopping Lists and Deep Discount Suppliers
- Shop Layout Planning and Space Management
- Heating, Cooling, Ventilation & Dust Prevention
- Safety Issues and Precautions
- Installing Electricity, Lighting and Sound Proofing
- And Many More...

The book also provides readers with information on the kind of tools they should avoid. There is also advice on the type of tools to buy, which specific tools you need for your project, how to maintain and store them, and a list of tools to avoid. The book will prevent readers from losing money, and at the same time make the right decisions that will eliminate the fear of starting.

"I purchased this book because I'm newly retired and attempting to set up my shop my home. I'm new to setting up shop and can use some professional advice. Money is always an issue, but more important to me is the subject of time. This book solves both aspects for me. It contains sound advice if you do not wish to overspend on your shop," Tim S, woodworker from Livingston, TX.

After purchasing the guide, buyers have instant access to download everything. There is also an option to get the physical book shipped. Buyers also enjoy a considerable discount and protection with the 100% money back policy.
